---

Projects

Responsive Weather Application
Developed as part of the SheCodes Plus program.
- Built a mobile-first weather application using HTML, CSS, and JavaScript.
- Integrated APIs to display real-time weather data.

E-Commerce Dashboard
Individual capstone project for Melsoft Academy.
- Built a comprehensive e-commerce website using React, Redux, and client-side state management.
- Designed intuitive user interfaces based on a Figma prototype.
- Implemented routing and real-time data visualizations with Chart.js.

Team Collaboration Project
Part of Melsoft Academy team exercise.
- Worked in a team to create a task management tool.
- Utilized React Native for cross-platform compatibility.
- Focused on front-end design and API integration.

Languages

- English (Fluent)
- IsiXhosa (Fluent)
